The music on Electric Cambodia: 14 Rare Gems from Cambodia's Past more closely walks a middle ground between the distinct melodic and vocal style of traditional Cambodian music and the insistent rhythms and electric instrumentation of Western pop and rock; instead of suggesting Asian folk music with some American pop added to the mix, these tunes tend to offer a more equal fusion of the two styles, and the creative and cultural mashups result in some inspired combinations.. (For a minute I thought this might be some kind of hoax a la John Lurie's latter day black-face Marvin Pontiac Zip Coon act.
